Re: P-08-88

Dear [REDACTED]:

The signed Consent Order for your company for the above-referenced premanufacture notice (PMN) was received by the Environmental Protection Agency (EPA) on August 8, 2008. This is the effective date of the Order. EPA has revoked any remaining suspension time of the PMN review period under 40 CFR 720.75(b) and your company can commence manufacture or import after that date. Please note that a replacement page for Preamble page iv is included with this notification that emphasizes that the jurisdiction of this Order is only in the United States for both your client and any of your client's customers.

In addition, please note that 40 CFR 720.102 requires you, within 30 days of commencing manufacture or import, to send a completed Form No. 7710-56, "Notice of Commencement of Manufacture or Import" to the Document Control Officer (7407), Office of Pollution Prevention and Toxics, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, N.W., Washington, D.C., 20460. This form must contain the following information for the PMN substance: submitter identification, date of first commercial manufacture or import, address of manufacturing plant sites and chemical identity information. This information will be used for the purpose of adding the new substance to the TSCA Chemical Substance Inventory. In addition, if you wish the chemical identity to be listed on the Confidential Inventory, you must reassert and substantiate any claim of confidentiality in accordance with 40 CFR 720.85(b).

Thank you for your cooperation. If you have any questions or comments, please contact me at [REDACTED].

Sincerely,

151

Rose Allison, Senior Program Specialist  
New Chemicals Notice Management Branch  
Chemical Control Division (7405 M)
